Do Dinh Anh (Richard)

Senior Frontend Developer

Date of Birth: September 5th, 1995

Phone: +84 987.196.695

Email: dinhanhdo95@gmail.com

SUMMARY

- 6+ years of experience in software development.
- Excellent knowledge of JavaScript, TypeScript, ReactJS, VueJS, Design Patterns and UI/UX designs.
- Have a decent knowledge of backend development using NodeJS.
- Good at optimizing web applications for maximum speed and scalability.
- Experience with Micro-frontends architecture.
- Experience with unit tests, integration tests, and end-to-end tests.
- Experience with CI/CD and deployment process.
- Excellent teamwork, problem-solving and analytical skills.

TECHNICAL SKILLS

- **Programming Languages**
  - JavaScript, NodeJS
- **Frameworks/ Platforms**
  - ReactJS, VueJS, NextJS, NuxtJS, ExpressJS, NestJS, TypeScript
  - Lerna, Vite, Webpack, Gulp, Babel
  - JavaScript SDKs (Facebook, Google, Instagram, Firebase), PWAs
  - Sass, PostCSS, Material Design, Ant Design, Tailwind CSS, Storybook
  - Jest, Mocha, Testing Library, Cypress, Playwright
- **Deployment/Cloud platforms**
  - CircleCI, DroneCI, Jenkins
  - Heroku, Firebase, AWS
  - Docker, Kubernetes
- **Database Management Systems**
  - MongoDB, PostgreSQL, MySQL, MS SQL
- **Version Control**
  - Git, SVN
- **Others**
  - Good understanding of OOP methodologies.
  - Experience with Agile and Scrum development processes.

SOFT SKILLS

- Time management
- Self-learning and keeping up with technologies
- Teamwork spirit

- Problem-solving and analytical skills
- Critical thinking

WORKING EXPERIENCES

LINE Technology Vietnam
06/2021 - Present

Senior Frontend Developer
Project: Fortune 1to1 services
https://fortune.line.me/talk/
https://fortune.line.me/facing/
https://fortune.line.me/charmmy/
https://talk-care.line.me/lp/character/
https://vietnamdevcenter.linecorp.com/en/techtalk4/

- **Description**: Services that allow you to consult a fortune teller about your troubles using chat, phone, video, and email by famous fortune-tellers who are popular on TV programs. Divination such as clairvoyance, aura, tarot, and palmistry is also abundant.
- **Team Size**: 22
- **Responsibilities**:
  - Lead the development of the corporation's flagship web application, resulting in a 20% increase in user engagement and a 25% increase in revenue.
  - Design new projects' architecture and develop core functionalities, and in-house libraries to reuse in projects.
  - Set up CI/CD and prepare and deploy release scenarios.
  - Write docs and share tech talks with other developers.
  - Identify and address performance and scalability issues in the frontend to ensure a cohesive user experience in micro frontends.
  - Assign tasks to other members and review their work.
  - Mentor junior developers and provide technical guidance as needed.
- **Technologies:** ReactJS, NextJS, Typescript, PWAs, React Query, Tailwind CSS, Jest, Playwright, Websocket, WebRTC, Lerna, Webpack, LINE SDKs, DroneCI, Kubernetes, Nginx, Ansible

Savvycom
08/2019 – 06/2021

Web Developer
Project: PropertyScout (https://propertyscout.co.th/)

- **Description**: The best platform to buy, sell and rent real estate in Thailand. Most listings, detailed and accurate information, best prices are guaranteed.
- **Team Size**: 10
- **Responsibilities**:
  - Lead the development of the client's flagship web application, resulting in a 50% increase in user engagement and a 30% increase in revenue.
  - Deliver projects on time and exceed client expectations.

Project: Citeco E-Warranty

● **Description**: A technical equipment warranty system that takes care of customer expectations among shops, consumers, and manufacturers to provide the best warranty as fast as possible.
● **Team Size**: 10
● **Responsibilities**:
- Communicate with stakeholders to clarify requirements.
- Build a scalable and well-organized codebase structure.
- Review code from other members.
- Design and optimize critical modules of the system.
● **Technologies:** VueJS, Webpack, Sass, PWA, Facebook SDK, Firebase Cloud Messaging

NTQ Solution **01/2018 – 08/2019**	**Web Developer** **Project**: Serimu Jvideos

● **Description**: An enhanced experience video system. It attracts creators and makers to join the system so that they can improve, and

contribute to it then viewers can enjoy and wind down whenever they want.

- **Team Size**: 22
- **Responsibilities**:
  - Communicate with customers and teammates to clarify requirements.
  - Develop critical modules of the system that saved around 20% of the development time of other functionalities.
  - Identify and address performance and scalability issues in the frontend to ensure a smooth user experience.
- **Technologies:** ReactJS, Redux, Webpack, Sass, Ant Design, PWA

Project: M-Solution ARMS

- **Description**: Dealing with the client side of a firing alarm system so that the customer can ultimately be in control of problems accurately.
- **Team Size**: 8
- **Responsibilities**:
  - Communicate with customers and teammates to report daily work.
  - Create responsive designs that adapt seamlessly to different screen sizes and devices.
  - Build up features and implement unit tests based on requirements.
- **Technologies:** ReactJS, Redux, Saga, ImmutableJS, Reselect, Jest

Project: Pronexus-Works

- **Description**: One of the systems in a vast organization ecosystem that takes up 60% of finance in the Japanese market and manages tons of documents and links related to that field.
- **Team Size**: 7
- **Responsibilities**:
  - Communicate with customers and teammates to clarify requirements.
  - Propose new approaches and solutions that can help drive innovation in development.
  - Build up features and implement unit tests based on requirements.
- **Technologies**: ReactJS, Redux, Redux Thunk, Reselect, Jest

PowerGate Software
01/2017 - 01/2018

Junior Web Developer

EDUCATION AND QUALIFICATION

- **2013 – 2017**
  - **Certification**: Engineering
  - **Learning in**: Posts and Telecommunications Institute of Technology, Vietnam
  - **Specialized in**: Information Technology
- **2018 – 2019**
  - **Certification:** Agile Developers
  - **Learning in:** Agile Academy, Vietnam
  - **Specialized in:** Information Technology
